0% = Minimum State Match % Required		<input type="checkbox"/> Amendment	<input checked="" type="checkbox"/> Mental Health Bill

Operating & Maintenance Costs:

	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

Prior Funding History / Additional Information:

This is the first year of the project.

Project Description:

Small business ownership is the direction in which Alaska's economy is moving. Self-employed people own 68 percent of all businesses in the state. However, individuals with disabilities are seldom provided with the option of owning their own businesses. As a result of the Trust funding for the Economic Development Alliance, a mechanism to train and support individuals with disabilities to own their businesses is in place. The Council is currently working with the Center for Human Development to further develop and implement a supported self-employment model for beneficiaries who require ongoing support to run their businesses.

Most of these potential businesses are extremely small with start-up costs of less than \$10,000 and are seldom eligible for most grant and loan programs. These funds would be used to grant and/or loan funds to Trust beneficiaries or service providers establishing small businesses to employ persons with disabilities. Funds will also be made available through the Job Creation Project to private enterprises interested in securing capital in exchange for hiring beneficiaries. This program has been piloted in Juneau and Kodiak and has proven very successful.

The Council will use these funds to leverage funds from State agencies such as the Department of Community and Economic Development and the Division of Vocational Rehabilitation.

Results: This recommendation supports the Council's desired result for people to get and keep employment consistent with their interests and abilities, which is compatible with those outlined in the Comprehensive Plan and with the Trust's guiding principles. The need for these services was consistently reinforced during the State Plan planning process.

Indicators: Productively Engaged and Employed.

Performance Measures:

- ◆ Number of Trust beneficiaries who become self-employed
- ◆ Percent remain self-employed at 6, 12, 24 and 36 months
- ◆ Number of providers starting small businesses to employ and support Trust beneficiaries
- ◆ Number of private business owners participating in the Job Creation Program
- ◆ Number of Trust beneficiaries employed as a result of the Job Creation Program
- ◆ Percent who are generally satisfied with their choice of employment
